

## Teen Boys Mentoring Team

### It Takes a Village to Raise Your Son

Parents need help providing the right learning experiences to fulfill their son's potential. For thousands of years young men have been guided by adult men of integrity to be responsible and independent. This team provides feedback of experienced mentors that your son needs and will listen to.

### Prepare Him for a Successful Adulthood

Each week my mentors and I will support your son to face his current challenges head on. We will teach him to set goals and follow through. Each session includes boxing workouts where your son learns to push through barriers and develop discipline.

### We Use the RIGHT Way® Method

We teach your son the same RIGHT Way technology used at the Young Mens Ultimate Weekend, a non-religious rite of passage into manhood. This personal growth method empowers young men to master their strengths and overcome their weaknesses.
